

Big Parade With Floats, Bands, Water Stunts, Fireworks at Blue Island July 4**BOY SUFFERS SKULL INJURY**

Glenn Ruthenbeck, 16 year old son of Mr. and Mrs. Walter Ruthenbeck, suffered a skull fracture Sunday night, July 17, at the corner of North Cedar and Francis road, New Lenox when he fell backwards from the front fender of a car and hit his head on the highway. Glenn with several of his boy friends was returning home from the stock car races, when the accident occurred, about 11 p.m.

Feeling no ill effects from his fall, Glenn returned home a little after eleven, and went to bed. At 4 a. m. Monday morning he became violently ill, and family physician Dr. McGinnis of Joliet was called. At 4 a. m. Tuesday morning they removed him to St. Joseph's hospital, where they made several tests to find out just what was wrong. His parents knew nothing of his fall, and on Wednesday when they made a spinal test at St. Joseph's and discovered he had a head injury, figuring surgery would be necessary, they immediately removed him to Wesley Memorial hospital in Chicago. When Glenn's condition became serious, the boys who had been with him came to his parents and told them about Glenn's fall from the car. Not until then did they know what happened or how.

However, since Saturday Glenn's condition is good, and he had improved so very much, they may be able to bring him home the latter part of this week, barring complications.

Fourth of July Ode

James Russell Lowell

Our fathers fought for Liberty, they struggled long and well history of their deeds can tell—but did they leave us free?

Are we free from vanity, free from pride, and free from self, free from love of power and pelf, from everything that's beggarly?

Are we free from stubborn will, from low hate and malice small, from opinion's tyrant thrall? Are none of us our own slaves still?

Are we free to speak our thought, to be happy, to be poor, free to enter Heaven's door, to live and labor as we ought?

Are we then made free at last from the fear of what men say, free to reverence Today, free from the slavery of the Past?

Our fathers fought for Liberty they struggled long and well history of their deeds can tell—but OURSELVES must set us free.

LETTERS TO THE EDITOR

Dear Editor:

I see by your paper that the village trustees at a special meeting voted to pay \$300.00 to have the books audited for the last year. I have lived here a good many years and I NEVER before heard of such a request. Probably we haven't felt the need as we have always had village clerks who were well known for many years by the majority of voters and whose word we knew to be "as good as their bond."

Am I wrong in the following quote: "Important people use the streets of Mokena, they are made up of you, your family and your friends. Their safety would be more soundly assured by a year around maintenance of streets (and lighting facilities) rather than a pre-election program. We are pledging constant care of the repairing of these utilities."

Is a board of trustees sincere that makes a pledge like that and then spends \$300.00 to (Continued to back page)

"Just Been Thinkin'"

The children always love a tattered personality who stands patiently in a torrid cornfield or a vegetable patch, but oftentimes he is regarded too lightly by the older generation. That does not change his responsibility or his devotion to his job and, as I noticed him fading out in the twilight one evening, I thought that I ought to write a few lines to the fellow who so long has been friend to the soil and the speechless.

SENTINEL OF THE FARMLAND

There's a shabby old fellow
Way out in the field—
He's kind of a landmark
And sort of a shield...

He stands there a-guardin'
Young plants all the day,
And when it gets dark
He just won't go away...

He does so much good, and
He'll work till he drops
A-chasin' the birds that
Would eat up our crops...

He's out in the weather
From Springtime to Fall
And our scarecrow is really
A pal to us all!

Tinley Takes 5th in Row
Tops Grandview 7-5

On Sunday June 24th Tinley Park, due to a rained out ball field, journeyed to Grandview and came out on top of a 7 to 5 ball game.

Henry Siebrandt pitching for the Sportsmen, turned in a very nice 8 hitter, striking out 10 while walking 4.

Grandview started off in the first inning scoring 4 runs, all unearned by the way, when Evans, first up, popped out to first, Bush walked, A. Evans was plunked with a pitched ball, J. Evans popped out to short, Uher sent a roller down to short and Rick booted it filling the bases, C. Evans drove a home run to left center clearing the bases, Kelley rolled out pitcher to first.

Tinley was held in check by Jonaitis pitching for Grandview until the sixth inning when Rick leading off walked, Anderson promptly homered scoring Rick ahead of him, Nasebandt fanned, Landau homered, Siebrandt went out 2nd to first and Ficker popped out to the second base man to end the inning.

Grandview bounced back with one in the last of the fifth, on a single, a stolen base and another single. The Sportsmen tied it up in the first of the eighth on 2 hits and a two base throwing error by J. Evans of Grandview.

In the Tinley ninth Lloyd rolled out short to first, Kuech walked, Blonquist singled, Rick tripled to right scoring Kuech and Blonquist but was out at the plate trying to stretch it into a home run, Anderson walked and Nasebandt flied out to center.

Grandview threatened in the ninth when Kelly first up, singled, Busch rolled out pitcher to first, Jonaitis rolled to Kuech and Nasebandt now playing first, dropped the throw, Possarelli walked, T. Bush fanned out and A. Evans rolled out short to first to end the game.

On Sunday, July 1st, the Tinley Park Sportsmen will visit Roberts Park at the Argo High school grounds. Game time 2:30.

Tinley B's Rout Chicago Heights

By "Squebster"
The Tinley Park Sportsmen B team won their third straight YMCA league game by trouncing Chicago Heights 9 to 1. It was also their sixth straight victory this season.

Tinley jumped on pitcher Wayne Kurth for four runs in the first inning. Don Goessel led off with a double, Bob Fremder whiffed, Jim Tomlinson was safe on Kurth's bobble, Goessel taking third. It looked dim when Bob Cupp struck out, but Don Goessel stole home, Tomlinson taking second, then Gerry Hug walked. A wild pitch scored Tomlinson and put Hug on third. Jack Tomlinson then singled Hug home, stole second and scored on outfield errors.

Tinley grabbed four more in the second on a walk, a fielder's choice, both runners safe, a sacrifice, a triple and two singles. Tinley added a lone counter in the fourth.

Chicago Heights picked up its lone tally in the third when DeSolomon and Dierson walked, Hein fanned and while Kurth hit into a double play, short to first to third, the run scored. Jim Tomlinson struck out ten and allowed but two hits, while Wayne Kurth struck out seven and gave up five hits. Tinley played errorless ball all the way.

This hustling team is now in first place with a home game next Friday, June 29 at Memorial Park. Game time: 6:15 p.m. Let's all come down and give them our support, they deserve it.

An Editorial Congratulations

Congratulations are in order as the result of the outcome of the school election Saturday. With the total votes more than two to one in favor of a local high school it showed the desire of the voters and their pride in their community and their appreciation of the value of good schools.

The school survey committee deserves a great deal of credit for the work which they have done during the past several years. These men have spared neither time nor effort to meet the many requirements in the process of conducting the extensive survey and trying to find the most desirable answer to this vital question of improving our educational system and establishing a local high school, and at a standard required this day of advance progress. But their work is not completed by far. It seems logical that these men, or some of them, should be members of this first board of education for the new high school district, because they know so thoroughly all conditions and the problems and understand the taxing question.

Every citizen should be congratulated in voting for the betterment of their community; also all groups which conducted meetings in the various communities and the Mokena Civic Association for their help by circulating helpful explanatory literature.

BROTHER and SISTER

How Social Security Affects You

Social security benefits are not the same for all persons covered by law. There is a difference between those "currently insured" and those "fully insured."

A person is considered currently insured when he has at least six quarters of coverage out of the immediate past 13 calendar quarters. Upon the death of such a worker his widow and children under 18 are eligible for benefits. These benefits stop when the youngest child reaches age 18. The widow of a currently insured worker will not receive old age benefits nor would the worker have been entitled to receive them if he was only currently insured at the time of his death. The widow or widower of a currently insured worker does receive a lump sum death benefit upon the death of the insured.

A person is fully insured if he has a total of 40 quarters of coverage. Under the revised law he is also fully insured if his total quarters of coverage equals half the number of calendar quarters beginning with January 1, 1951 to the date of his death or retirement. He must have at least six quarters of coverage but all quarters of coverage are counted, including those had before January 1, 1951.

A person is also considered fully insured if his quarters of coverage equals half the number of quarters from age 21 un-

til death or retirement. Here again he must have at least six quarters of coverage but all quarters of coverage are counted, including those before becoming age 21.

There is also a special rule in determining full coverage for veterans. Every month spent in military service between September 16, 1940 and July 24, 1947 is treated as though worked in covered employment at \$160 a month.

When you are fully insured your family gets all the benefits that are paid if you are currently insured, as mentioned above. In addition, the following benefits are also received: (1) Retirement benefit when 65, (2) wife's benefit when 65 or if under 65 but has your child un-

der 18 in her care, (3) your child's benefit if under 18 when you are 65, (4) widow's benefit when she reaches 65, and (5) parent's benefit.

The amounts of these benefits will be discussed in a future installment.

WHAT A RELIEF

From Rheumatic Muscle Pain!

Now you can get quick-action, temporary relief from local superficial pains of rheumatism, lumbago, neuritis, bursitis, sciatica, arthritis as well as fatigue and muscular aches and pains of simple colds with the new ointment—SURIN—because SURIN is based on a new application of a principle. It contains an active modern research drug—methacholine chloride, a powerful ingredient to dilate surface blood vessels when applied at the point of pain. SURIN provides double action pain relief. (1) It increases blood supply (2) allows local, relaxing agents, camphor and menthol and local analgesic to penetrate faster giving quick, temporary relief at the point of pain. In a few minutes you feel the soothing warmth from SURIN. Then follows blood relief lasting 1 to 8 or more hours. No internal dosing—use SURIN locally. Not an ordinary rub ointment or liniment. SURIN has a new elegant base, creamy-white, smooth. Easy to apply. Will not stain washable fabrics. Quickly washes off in warm water. Money back at your druggist if not satisfied!

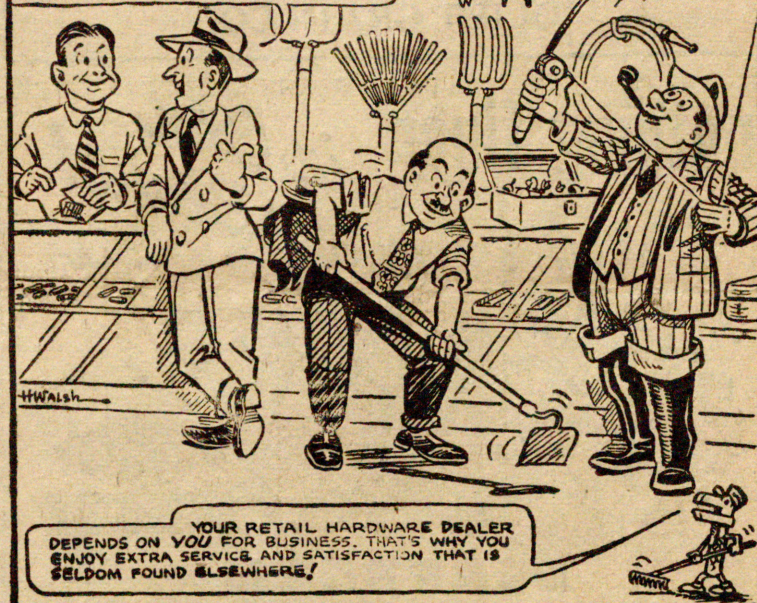

*SURIN is not intended as a cure or treatment of above diseases. It is to be used only for temporary relief of local superficial pain.

"Inflation is like a skittish horse; the time to keep him from running away with you is before he starts!"

"SMALL BUSINESS"

By C. WILSON HARDER

Thousands of letters have poured in from independent businessmen on the Supreme Court action on the Fair Trade Laws. "What can be done?" the majority of them ask.

For one thing, the National Federation of Independent Business, and other organizations, has taken steps to get new legislation introduced. Small businessmen can aid by writing their Congressmen, demanding not only new legislation but also C. W. Harder that the Federal Trade Commission immediately investigate and enforce all provisions of the Robinson-Patman Act.

In writing Congressmen on the Fair Trade Laws it should be borne in mind that uncontrolled price cutting can throw the nation into a severe depression.

Naturally, the chaotic price wars of the past few weeks will eventually harm labor, but it is probably too much to ask that anybody in power in Washington today have vision beyond the ends of their noses.

Don't be blind to effect of this price war. It can do more to wreck economy of country; deliver all business into the hands of a few monopolies than the so-called "police action" in Korea.

And as usual, Washington is months behind. In face of price war, official talk is all on plans to combat rising prices. That's a smoke screen to hide other plans.

It will be up to the businessmen to bring order out of chaos. And while working for stronger Fair Trade Laws and a useful Federal Trade Commission there

are several ways that businessmen can protect themselves.

Remember, in the states that have Fair Trade Laws the law can still be enforced. The only big upset by the court decision was that a Fair Trade Agreement is not binding unless the merchants agree in writing to uphold the manufacturer's price.

So, check with your suppliers. If your supplier has required distribution outlets to sign such an agreement, make sure the supplier enforces compliance.

If the suppliers have been lax in this respect, or have not required the agreement in writing, do not buy his merchandise except in small lots just to meet demands of your trade from day to day. You may lose some sales, but lost sales are better than lost inventory dollars.

Where you can, switch to lines that are not being dynamited by the big outfits. You can, with a little extra salesmanship, sell your customers different lines that have quality.

Insist on your suppliers selling you at a price that will enable you to meet the lowest price his line is being sold in your area.

For the immediate present, it will be well to follow this rule.

Keep your inventories as low as possible, even though it hurts, but as stated above, it will be better to lose sales, than lose inventory dollars.

These measures are for your short range protection. Your Congressman supported by organized small business can help you on long range protection.

So, write him, insisting that Fair Trade legislation be enacted immediately, and at the same time protest any vote toward any tax increase of any kind until such legislation is enacted.

Be Alive the Fifth!

Independence comes high. Many Americans bought it with the price of their lives in the Revolution and many more have died since to preserve it. It is written into the constitution and into the hearts of the American people.

Americans will never question the value of independence, but it is the price for all of us to weigh the price we pay each year just to celebrate it.

Last year, when the Fourth of July provided a four-day weekend holiday for many persons, the accident toll hit an all-time high of 793. Traffic accidents alone took 491 lives. Other miscellaneous accidents, such as drowning and fires, claimed 302.

The calendar will save lives this year, since the Fourth falls in mid-week, bringing only a one-day holiday for most persons. But even so this annual celebration of our national independence will bring tragedy and death to many Americans.

The traffic accident death toll already is up 10 per cent this year. Add to that the heavy travel and recreational activity of a holiday and the Fourth remains on the nation's danger day list.

With traffic accident deaths now numbering more than 971,000—and the millionth victim expected in December, according to the National Safety Council—it is time for Americans to apply voluntary controls to accidents.

Since the invention of the automobile, the number of Americans killed in traffic accidents is nearly twice the number of patriots killed in all the nation's wars.

The Constitution guarantees every man liberty and independence. In America no one questions anyone's right to go wherever he pleases to celebrate Independence Day, or any other holiday, but level-headed Amer-

icans are questioning the right of a minority to endanger the lives of the majority.

The police alone cannot curb accidents without the wholehearted support of the nation's motorists—the very people

whose lives are at stake. There is much talk today about preserving the American way of life. If we are to preserve American lives we must set up voluntary controls over carelessness.

From where I sit ... by Joe Marsh

The Cow That Can't "Run Dry"

Sandy Johnson showed me his Jersey cows last week. It was a warm day and they were all under the trees near a watering trough.

And darned if one cow wasn't pumping water into the trough! It's a fact—she'd raise the pump handle with her nose, and use her throat to push it down again.

"That's Mabel," Sandy explained as she moved away. "Sometimes they drink that trough dry, and she's learned how to fill it again. But she doesn't know her own strength—turns the place into a swamp if we don't watch her."

From where I sit, Mabel isn't the only one who sometimes doesn't know where to stop. For instance, people often carry personal opinions too far—like the person who wants everyone to accept his choice of political parties, or ball-players ... or beverages. I prefer a glass of beer with my meals. I know that a lot of other people prefer milk. But nobody ought to insist on "herding" others around to his way of thinking.

THE BIBLE SPEAKS

International Uniform Sunday School Lessons
BY DR. KENNETH J. FOREMAN

SCRIPTURE: Genesis 1:26-27; Matthew 8:1-4; 12:9-13; 18:1-6, 12-14; 1 Peter 1:17-19.
DEVOTIONAL READING: Psalm 8.

You Are Important
Lesson for July 1, 1951

YOU are important! Whoever you are, wherever you live, whatever you do, you are important to others, to yourself and to God. You are the one and only "you" you will ever be; you have but one life to live, one destiny to fulfill, one soul to save.

The Sunday schools of America are going to put in the rest of this summer studying Christian teachings about human relationships; and we begin, this week, by looking at a basic principle which underlies all of the Christian view of life and its relationships. No other teaching of the Bible will do you much good if you can't believe this simple truth; the incomparable importance of each individual person in the whole world.

In The Image of God

HOW does the Bible teach the importance of the individual? First of all, by declaring that man was made in the image of God. In spite of man's sinfulness, even in the shabbiest and meanest of men there is still some trace of the image of God.

John Calvin, as is well known, was far from optimistic about the nature of man; but even Calvin wrote that the only good reason why we should love our enemies and do good to the undeserving, is that even in the worst of men there is still the image of God, so that what we do for any man we are really doing for the God whose image is in him.

Every man is in some sense a fresh creation. Widely used child's catechism asks the question: Who made you? And the answer is, God made me and all things. Every one has the right to give that answer to that question.

Bought With Blood

ANOTHER reason why we believe that every individual is important is summed up in what St. Peter said (1 Peter 1): We have been redeemed—that is, ransomed, bought back—with what is more precious than jewels or gold, the "precious blood of Christ."

Does this mean only those who are now Christians? Surely not. You have a right to say to any man, anywhere: Christ died for you. If you cannot say that, then you are reduced to saying, Christ died for a limited number of people, and for anything I know to the contrary, you may be one of them.

That is a puny sort of gospel. If there is one thing which every evangelical church teaches with universal enthusiasm, it is that the gospel is offered freely to all. If there is one verse in the New Testament that sums up the gospel it is John 3:16: God so loved the world . . . that whosoever believeth . . .

That is no limited gospel. And no one who takes it seriously can look with scorn on any living soul. Jesus has warned us against scorning even a child. Isaac Watts once let a non-Christian idea get into one of his hymns—"for such a worm as I"! That is not a Scriptural idea. Christ did not die for worms, he died for men.

If So, Then What?

MOST Christians do not need even as much argument as this to make them believe in the worth of the individual; they are sufficiently convinced by the attitude of Jesus himself. Nobody could think seriously about Jesus' treatment of children, or his parables about the lost sheep and the lost son, without coming to the same conclusion.

The key-question always is: What is this action, this attitude, this plan, this arrangement, this institution, this system,—what is this doing to persons?

Persons are more important than anything else in the world. This by no means goes without saying. For the world of our time is riddled and raddled with other and contrary ideas: as for instance that man is only an animal, or that he is simply the highest of the animals, or that a man's value comes from his family, or his race, or his bank account.

Against all these mistaken views the Christian must stand, firmly knowing that he, no more than others but no less, is made in God's image and an object of God's love; and so in himself, small though his place may be, not only has a value that can never be described in dollars, but is worth more than the human race can ever own.

Under The Cross Of Malta

Service! Any person, business or organization that hopes to prosper must serve. No matter how lofty their ideals, service is the substance that makes them successful.

Wm. Martin Post 725 has a building to pay for. There was a need in the village for a hall to serve the public. Thus far that hall has served the need very well and it will continue to do so. The public has supported all functions very well, and we of the VFW are thankful.

But, we have a long way to go yet before we can call the hall our own. We must of necessity find ways to raise funds for these needs, and we must look about us for more ways with which to raise those funds.

In all our efforts to raise funds, we must not forget that we are a service organization, so we must also look about us for ways that we can serve the public. In the past I have pointed out some forms of service we can perform. If anyone else has any good ideas, bring them out in the open, and above all, let us as an organization put some ideas into action. There are other organizations competing with us for patronage, and those that go out for public service will get the patronage.

Just recently it has been brought to my attention that the Civic club has assumed the duty of keeping Pioneer Cemetery in order. More power to them. They have other ideas for community service too. Now, just watch their smoke. Success to them is assured.

Thursday, June 28th will be the regular meeting. Let's get on the ball fellows.

Mokena Youth To Attend Music Meet

Gerald Lehmann, son of Mr. and Mrs. G. Lehmann of Mokena, has been accepted for participation in the two weeks' Illinois Summer Youth Orchestra at Urbana, sponsored by the University of Illinois School of Music. He will take his clarinet and saxophone with him to Urbana.

Hold Inquest On Death of H. Eggers

A coroner's jury conducting an inquest into the death of Henry F. T. Eggers, 79, of New Lenox, gave the verdict of pulmonary adenitis as the cause of death. This was the result of second degree burns suffered when the deceased accidentally walked into burning grass when cleaning his yard on April 5. He died June 3. The hearing was held last week.

Tire Thieves Busy At New Lenox

Tires thieves were busy again in this territory when some time Monday night they broke into the Standard Oil station, corner Route 30 and Cedar road, at New Lenox and took 18 auto tires.

The station is owned by Earl Schroeder. The tires were in a rack and all chained. The lock was broken and tires taken. It is thought the thieves were scared away as they left 16 tires. Mr. Schroeder noticed the thief when he opened the station Tuesday morning. The tires, all insured, are valued at \$450.

"audit the books" while the holes remain as deep and dangerous as ever?

If they really believed that the villagers were doomed to a slow death (or a fast one) by the present water supply would they spend money for the books to be checked and leave us to a dreadful fate? I'm now inclined to think the big fuss about the water was just a trap to catch the new residents here as I recently learned that the state tests of Jan. 2, 1951 showed the water to be safe at the time the tests were made and better proof yet, that we all should have kept in mind, was that no single case nor epidemic of sickness have ever been traced to Mokena water.

How can a board take credit for open board meetings when all the villages around here by such has been the practice of law and policy? To tell you the honest truth, Mrs. Editor, I'm disgusted with our village board.

Just (I think)
An average voter.

Editor's Note: Mayor Spiess has informed us that at the first meeting of the new board \$500 was assigned to the Streets and Alley committee, Robert Hohenstein, chairman, Edward Hentsch and Stanley Williams, to repair village streets. It is presumed the much needed street repairs will soon be forthcoming.

Letter to the Editor

Dear Editor:
Let me introduce myself as Little Beauregard. I have been having those letters in the paper, signed by Elsie, read to me. There are Elsie Smiths, Elsie thousands, but "Elsie"—just Browns, Elsie Jones by the plain Elsie, there is only one that I know. All of your readers know Borden's Elsie, Elmer and Beauregard. I am sure someone is signing Ma's name to those letters. Why would a respected

ECONOMICAL POWER MAXIMUM EFFICIENCY

"69" HARVESTOR and the MODEL "R" TRACTOR

The Model R and a "69" Harvester are a perfect harvesting combination. The R always has plenty of reserve power when the going gets tough. It's better to have plenty of power than not quite enough when you need it. The "Finger-tip" hydraulic controls of the R teamed with the "69" make harvesting a one-man operation. The Vision-lined design of the R lets you see what you're doing. The smooth riding qualities... easy steering... hand operated clutch... quick-acting brakes... make the job less tiring on long work days during harvest.

You'll be wise to check the many features of both the R tractor and the Harvester "69" before your harvesting problems arise. Both machines are designed with traditional MM quality for economy and dependability in operation. And remember, special equipment is available to adapt this "harvesting team" to your particular conditions... no matter what.

member of the Bovine family want feed clipped, raked and disposed of as mulch or waste? Just think how our family could enjoy being out there in that Mokena grass instead of standing around at some fair with thousands of people looking at us.

In addition to that long grass my Pa Elmer would enjoy rubbing his back on that nice cannon in your burying grounds. I wrote this letter so your readers won't think that just plain "Elsie" is objecting to long grass. Beauregard.
